

Wilshire Dr. - Road Repair Project

There is a road repair project taking place on 800 feet of Wilshire Dr. This project will begin on or about June 25th, 2024. The initial phase of repair should last from one to one- and one-half weeks of time.

The project's beginning and end point will be 1518 Wilshire Dr. and extending south approximately 800 feet. This affected area will have all bad soils removed, clean sand and road materials will then be backfilled. The affected area will be the entire width of the road.

There will always be one lane open for traffic during this entire construction/repair period. Please slow your speed and use caution when motoring through this affected area.

After this initial phase of repair is completed, new asphalt will be applied later in the summer. If you have any questions, please call the Town of Hull @ 715-344-8280.

Thank You for Your Patience!
